

Dear colleagues,

We are excited to announce the **Panel Session: "Data Visualization in the Age of Artificial Intelligence: Digital Storytelling, Big Data, and Open Data"**, organized as part of the **11th International Conference on Social Science Methodology**, hosted by the **International Sociological Association's (ISA) Research Committee RC33 on Logic and Methodology**. The conference will take place at the University of Naples "Federico II" in Naples, Italy, from **September 22 to 25, 2025**.

**Panel Chairs:**

- Paolo Diana, University of Salerno, [diana@unisa.it](mailto:diana@unisa.it), Italy
- Giampaolo Ferrari, University of Salerno, [giferrari@unisa.it](mailto:giferrari@unisa.it), Italy

This panel explores the transformative role of Artificial Intelligence (AI) in data visualization, focusing on digital storytelling techniques and the impact of Big Data and Open Data. Topics include AI-driven advancements, strategies for enhancing accessibility, and case studies showcasing innovative methodologies. The session aims to foster interdisciplinary dialogue and share best practices for translating abstract data into actionable insights.

**Call for Abstracts:**

- **Deadline:** March 15, 2025
- **Abstract Length:** Maximum 300 words
- **Language:** English

Submissions should align with the panel's themes and will be evaluated based on quality, relevance, and coherence.
